#### **POSITION DESCRIPTION:**

The Employee Health Nurse endeavors to promote health and safety to all employees by facilitating an Employee Health Program which includes disease detection, prevention, and treatment; following up employee illnesses and injuries; conducting employee health screenings; and promoting a safe work environment.

#### **POSITION REQUIREMENTS:**

The position requires a Bachelor's degree in nursing with current Alaska state licensure. A minimum of two years of experience in employee health or a related field with demonstrated administration of an employee health program or other related program. Experience in data tracking, analyzing, trending and reporting. Proficiency in Microsoft Word, Excel, PowerPoint software. Prefer a Master's in nursing and ABOHN certification in Occupational Health Nursing.
