Position Title: Vice President, Workforce Health & Safety

Employer: HCA Healthcare

Position Description: HCA Healthcare is a comprehensive healthcare network where 265,000 people across more than 1,800 care facilities are all committed to creating a positive impact. It’s an organization that exists to give people healthier tomorrows. Our scale enables caregivers to deliver great outcomes for patients and gives colleagues unparalleled opportunities to grow. What matters most to our diverse and talented colleagues is giving people the absolute best healthcare possible.

The Clinical Operations Group (COG) is a multi-disciplinary team of physicians, nurses, clinicians, technicians and analysts who represent all dimensions of a learning healthcare system. COG works in support of HCA Healthcare Divisions and Facilities to promote clinically-excellent, patient-centered care. We foster collaborative and innovative practices to resolve complex clinical issues.

Under the direction of the Chief Epidemiologist, the VP Workforce Health and Safety will provide centralized leadership and direction for HCA occupational health and safety initiatives and affiliated programs. You will research, develop, and provide oversight of new strategies and solutions that build upon HCA’s reputation for eliminating patient harm through infection prevention and safety science by advancing a comprehensive program of workplace health and safety across the enterprise. You will work closely with key stakeholders at all levels of HCA to ensure that all health and safety standards are met in an effort to safeguard the health and well-being of all colleagues. You will develop sustainable exposure, disease and injury prevention programs to improve overall safety and health of the enterprise workforce. In partnership with Infection Prevention, provides leadership support for HCA’s Infectious Disease Response Program.

- Bachelor's and Master's Degrees required.
- RN, APN, MD, or relevant Clinical Degree required.
- 10 plus years of experience in a clinical setting (Occupational Nurse, Occupational Physician) required.
- 5 plus years of experience in an administrative/leadership role.
- Occupational Health Certification Highly Preferred.
