This shall serve as verification of the **Certified Occupational Health Nurse – Specialist** credential status of the above-named individual.

Specialty certification as a Certified Occupational Health Nurse is **not a license.**

The Certification Program for Occupational Health Nurses is a voluntary activity. It is sensitive to areas of general practice and knowledge across multiple professional disciplines. Passing the Certification Examination for Occupational Health Nurses verifies a certain basic level of knowledge in the field of occupational health. Boundaries of practice are determined by state practice acts, not the certification examination. Job descriptions and job functions are determined by employing agencies, not the American Board for Occupational Health Nurses, Inc., (ABOHN). Certification as an Occupational Health Professional is valid for a one-year period.
